

eMTSA

electronic MONSANTO TECHNOLOGY STEWARDSHIP AGREEMENT

All growers must be licensed to purchase seed that contains Monsanto trait technology.

eMTSA

Growers can now apply to be licensed by calling 1-800-ROUNDUP (1-800-768-6387) Option 3, and submitting their information over the phone.

This process requires:

- Grower's personal email address & access to the internet
- Dealer's email address (for notification purposes)
- Within this process the grower will verify demographic information and their identify through a series of six (6) questions taken from over 400 public databases

Benefits to this process:

- Easier, faster, secure electronic option
- Simple phone call starts the process
- Convenience – complete at home, farm or dealership (via their computer)
- Reduce grower duplication
- Easier access to MTSA (Monsanto Trait Stewardship Agreement)/TUG (Technology Use Guide) documents

Here are the quick and easy steps:

Step 1: Growers call 1-800-ROUNDUP, press option 3 to talk with a Monsanto representative.

Step 2: Grower will receive link to the electronic MTSA site via email (if email is not received within 15 minutes, grower should check their SPAM folder).

Step 3: Grower creates electronic signature through DocuSign (Six question identify verification process).

Step 4: Grower creates electronic signature and signs eMTSA.

Step 5: Grower receives electronic version of approved eMTSA via email within 1-3 days.

Please Note: Paper MTSA's will continue to be accepted.
