Good video but metal chaff is not the same as a chemical trail.

Try to find out what exactly the USAF was spraying at that time. If it were metal particles as stated, then attempt to find out what the ecological effects are. Follow up on your research.

diffusedlight (3 weeks ago) Reply 0

You're frustrated because you're so stupid you can't really express yourself, and no one can listen to your woo woo scare theories without laughing in your face.

That's why you like Youtube, you get to wear a tin foil hat and get extreme, and you don't see the people laughing at you. ...on and they still are.
