Countermeasures

Chemring is the world's leading producer of expendable decoy countermeasures for protecting air, sea and land platforms against guided missile threats. Our products include flares, chaff, special materials and naval decoys.

Energetics

Chemring is a centre of excellence for the design, development and production of energetic materials and sub-systems for military, OEM and safety customers. We manufacture safety systems, initiators, pyrotechnics, disruptors, medium and large calibre ammunition, pyromechanisms and propulsion systems.
