Late this afternoon, I was outdoors and I was checking out the sky and the air quality looked very poor. My sister had told me in the morning that she saw "dry rain" coming down...I looked and I saw lots of white stuff in the air. But I wasn't prepared for what my camera caught coming down from the sky. Some of this could be pollen.....but it looks fiber like, and I've seen this before when its not high pollen season. I also find many "stringy fibery things" all over the outdoor plants on days like today...and I saw that this morning also. Is this "fallout" from the aerosol spray planes that spray the lines in the sky....some say yes it is. And that it is smart dust or polymer fibers coming down, along with heavy metals like aluminum and barium. for more info:....www.carnicom.com also watch "What in the World Are They Spraying" on you tube. check out www.stopgeoengineering.org WE IN PHOENIX HAVE A THEFT OF SUNLIGHT! We now live in a cloudy desert. Thanks to the illegal geoengineering, planet wide....spread the word. Do we want to breathe this? Our kids? Any living thing?????

complain to the government?? are you kidding?? :-)
 I don't mean to be cruel and laugh, but folks you really NEED to wake up! who do you think is DOING this to you? and then you're going to go complain to them about it? jeeesh :-)
 what you need is lots of Orgonite. cloudbusters, towerbusters, hhg's, and zappers galore.
 YOU have to fix this. the gov is AT WAR with YOU.
 FIGHT BACK.

@[lightsabre6](#) At least we can complain so they know we know what they are doing. If everyone woke up and got together, maybe it would make some difference.

[@jabberskywatcher](#) you're missing the point a bit here: you DON'T need to complain with everybody together. YOU are awake, and YOU can fix the problem all by yourself with orgonite.

set up an orgonite cloudbuster in your backyard and gift all the cell towers in your town with towerbusters, and your chemtrail problems will be over. you will protect your whole town all by yourself. i know it sounds hard to believe, but it is absolutely True.

you CAN handle this problem, step into your power.

Respond to this video...

[@lightsabre6](#) i think you're right about the orgonite. a friend in Tucson uses it to some degree of effectiveness-however-smart dust or fibers falling from the sky is a whole other story. one thing is FOR CERTAIN: the "system" is at war with us...and our warring back is going to be difficult...so...we have to think outside of the box...be clever. can't do any of that though till you are at least awake eh? like, step 1 is 'wake up'!!! anyway this vid made me feel very uneasy. red flag.

Did you take a sample of it? Can it be seen on the ground?

This happened in Dallas also, I thought it was pollen. I'm very aware of chemtrails, I have had bronchitis for a year now because of them. Sharing.
