Welcome

Welcome to the U.S. Navy's official web site for the Naval Weapons Systems Training Facility (NWSTF) Boardman Environmental Impact Statement (EIS). This website is the U.S. Navy's online resource for information concerning the EIS and EIS process. The purpose of this site is to provide information on the Navy and Oregon National Guard's use of NWSTF Boardman, and the Navy's strong commitment to protecting natural resources.

Announcements

Revised Notice of Intent Comment Period Extension - Wednesday, January 25, 2012

The public scoping period on the NWSTF Boardman EIS was extended by 32 days, from January 27, 2012 to February 27, 2012. A copy of the Federal Notice can be viewed [here](#).

Revised Notice of Intent (NOI) to be Published in the Federal Register - Thursday, December 22, 2011

The Department of the Navy (Navy) is revising the scope for the EIS for continued and increased training activities on NWSTF Boardman, Oregon. The Navy is modifying its proposed action to including the addition of new Special Use Airspace in the form of a Military Operations Area (MOA). The revised airspace can be [accessed on the Documents and References page](#) of this website or can be opened [here](#). This new MOA would preserve required training capabilities at NWSTF Boardman that are necessary to maintain military readiness. The [Notice of Intent \(NOI\) for this revision](#) was published in the Federal Register on December 27, 2011 it is also [available on this website](#). The public comment period in response to this revision ended February 27, 2012.
