

# Honeywell T-Hawk™ Micro Air Vehicle

[honeywell.com/aero](http://honeywell.com/aero)[Overview](#)[System Features](#)[Operational Attributes](#)[Demos & Videos](#)[Why T-Hawk](#)[Contact](#)

## Overview

Honeywell T-Hawk.

Providing real-time situation awareness that protects lives and property in critical situations.

Featuring vertical takeoff and landing, the lightweight and portable T-Hawk is a combat-proven unmanned micro air vehicle that can be quickly deployed. T-Hawk is easy to assemble and can be airborne within 10 minutes. It is simple to fly with minimal training. With unique hover and stare capability, T-Hawk supports advanced intelligence, surveillance, and reconnaissance (ISR) with real time video documentation.

Day or night, the all-weather T-Hawk increases situational awareness.
