Kevin Anderson and Alice Bows

**Reframing the climate change challenge in light of post-2000 emission trends**

Phil. Trans. R. Soc. A November 13, 2008 366:3863-3882; doi:10.1098/rsta.2008.0138

...the current framing of climate change policy. In the absence of the widespread deployment and successful application of **geoengineering** technologies (sometimes referred to as macro-engineering technologies) that remove and store atmospheric CO<sub>2</sub>, several headline...
