Respond to this video...

As soon as she said "several orders of magnitude larger than Chernobyl" she lost all credibility. The disaster is bad enough without hyperbole.
[DrTodd13](#) 16 hours ago

I understand her concern but I think she should provide more facts as to what is going on, not what could possibly happen.
[cowyow101](#) 1 day ago

we need to prepare and protect ourselves from this and what is to come. these are the times to spread awareness and prepare with our loved ones and organize in our communities, we will not be helped by "the powers that be". - One Love & Peace and safety to ALL
