Very, Very, heavy Chemtrailing today in Los Angeles county, 07/17/09.

It was a pre-dawn operation, that by 7:30 am, was already dissapating into eerie, cirrus-type configurations. Heaviest in the NorthWest quadrant with longer flumes

in the SouthEast quad.

There is an odd white misty halo affect surrounding the dissapating, mock, cirrus patches, with general haziness increasing over entire sky, throughout the day.

A chemtrail has many similarities with a contrail... However, chemtrails last a lot longer, and they accumulate more moisture than contrails. Chemtrails may actually turn into clouds due to the moisture they absorb. Additionally, chemtrails differ in their flight pattern configuration from contrails; they do not appear to show aircraft trajectories from point A to point B, but rather crisscross-like patterns.

Researchers discovered 6 different agendas or motives for these operations, some of which may overlap: environment or climate changes, biological, military purposes, electromagnetic, geophysical or global effects, and exotic propulsion systems. Analysis of material from chemtrails has revealed magnetic salts, including the toxic substance of barium. Fibers, submicron in size, have also been detected, and they bear a physical similarity to the filaments found in Morgellons Disease.

This is nutty. If those trails are not water vapour condensed from the atmosphere, how might the aircraft fly? You lovely people do realise how much all that would weigh, right?

This silly idea has so many holes in it, and your so called evidence is utter conjecture.

You've all been watching X-files reruns a bit too much I think.

what I find as weird is they say..we need to get involved in politics if we want answers and change..

YET, people have been pounding the political element for answer for sevreal years now, and we still get the same answers....that being; we don`t know want your talking about, to the same old your crazy.....

no doubt this is a space based program.....I have been saying that it`s a space based program for about 3 years now...I glad to here other following up on it...

I don`t believe it`s terrorist protection program...

What ever it about its been 10 years + of a ongoing spray programs..

And they where wondering where 2.3 trillion dollars of the pentagons money was going the day before the 9 -11 event happen. This missing money was brought to the attntion of congress one day before 9-11

Also for clarification, I am not asking about pilots that are part of the government conspiracy of spraying chemtrials. I am asking about any verifiable pilot that is not part of the government conspiracy but that see the same lines in the sky and question them because they last so long

Surly one of the researchers knows of non chemtrail pilot (verifiable) that has made of YT video questioning or speaking out against chemtrails

**onefourwhisky** (1 day ago)

[Reply](#) 0

but thank you gr8stuffis for your response, I understand that you do not know of any verifiable pilots that have questioned the trails seen in the sky. But surely one of the other researchers knows of a YT video of verifiable pilot (unlike av8er152) that has spoken out about chemtrails or questioned the long lasting trails.
