**Cancer Rate In Hinkley Unremarkable According to State »**

**GET ACCESS NOW** **Bloomberg GOVERNMENT BGOV.COM**

Submitted by [Dan Wilson](#) on December 14, 2010 - 3:32am. [Cancer](#) | [Extreme Weather and Disasters](#) | [Nation - World](#)

(Best Syndication News) Cancer incidence rates in San Bernardino County are below the state average, according to data provided by the California Cancer Registry. Today the state released the results of three studies that found cancer rates in Hinkley were not extraordinary.

The state of California claims the rate of cancer in the community was less than expected for the region. The reporting period was from 1996 through 2008.

Pacific Gas and Electric (PG&E) was sued for ground water contamination and paid out \$333 million in claims in 1996 to the residents of Hinkley. Between 1952 and 1966 the utility used hexavalent chromium (chromium 6) to help prevent rust in their cooling towers. The contaminant seeped into the ground at their natural gas compression station.
