Contrails off the east coast of England and over the Netherlands

<b>Image ID</b>	507
<b>Acquisition date</b>	2007-10-14
<b>Over head time</b>	12:01:00
<b>Sensor</b>	modis
<b>Channel(s)</b>	1,4,3

A mass of contrails can be seen off England's North Sea coast and also over the Netherlands. Sediment discharge can clearly be seen especially from the River Thames and the River Seine discolouring the water of the North Sea and English Channel.
