DOMESTIC WATER RATES EFFECTIVE JANUARY 1, 2010

IRRIGATION WATER RATES EFFECTIVE JANUARY 1, 2010

**DOMESTIC RATES:**

The monthly meter charge, based on meter size, is to be collected whether or not there is water usage.

- \$20.00 per Month, per Dwelling, (plus an additional \$10.00 per Month per allocation registered with the District for additional units on the same meter).
- Meter sizes 3/4", 1", 1 1/2", 2" for Residential Services: \$10.00 per Month.
- Meter size 2": \$30.00 per Month.
- Meter size 3": \$45.00 per Month.
- Meter size 4": \$60.00 per Month.
- When residential uses are combined with and take service through a commercial service, the Monthly per Dwelling Fee will also apply, in addition to the commercial meter charge.

**Monthly Billing Formula:** Monthly Meter Charge (with NO water included) + gallons used. The listed Rate is per 1,000 gallons for convenience. The actual Billing and Record of Usage on your monthly bill will be per actual gallons consumed.

- The billing is in ascending block conservation rate so the more you use the more the additional water costs per gallon. *The tiered rate offers the customer a great deal of control over their individual monthly water charges.*
- For the first gallon through 4,000 gallons the usage charge is \$3.75 per 1,000 gallons.
- For any usage between 4,001 and 8,000 gallons the usage charge is \$4.00 per 1,000 gallons.
- For any usage between 8,001 and 12,000 gallons the usage charge is \$4.50 per 1,000 gallons.
- For any usage between 12,001 and 20,000 gallons the usage charge is \$5.00 per 1,000 gallons.
- For any usage over 20,001 gallons the usage charge is \$5.50 per 1,000 gallons.

For example, if a dwelling with one allocation uses 12,500 gallons per month, the rate would be calculated as follows:

<b>Monthly Meter Charge</b>				<b>\$10.00</b>
1st 4,000 gallons (4000)	\$3.75/1000	\$3.75 X 4		<b>\$15.00</b>
2nd 4,000 gallons (8,000)	\$4.00/1000	\$4.00 X 4		<b>\$16.00</b>
3rd 4,000 gallons (12,000)	\$4.50/1000	\$4.50 X 4		<b>\$18.00</b>
500 gallons (12,500)	\$5.00/1000	\$5.00 X 1/2		<b>\$2.50</b>
<b>Total</b>				<b>\$61.50</b>

*Important note: for those of you with registered second, third, or multiple units (mobile home parks) for which you are paying an additional monthly fee of \$10 per each unit, the following tier structure will apply:*

*If you have two units your first tier increase will be at 2X 4,000= 8,000 gallons. The second tier will be from 8,001 to 16,000 gallons. The third tier will be from 16,001 to 24,000 gallons. If you have 3 units or 50 units, each tier will be multiplied by the number of units for which you are paying the \$10.00 monthly fee. Due to the moratorium, no new additional units will be accepted at this time.*

**IRRIGATION RATES:**

The monthly meter charge, based on meter size, is to be collected whether or not there is water usage

- Meter size 2": \$35.00 per month plus mandatory pre-purchase of 1 acre foot.
- Meter size 4" - 6": \$55.00 per month plus mandatory pre-purchase of 2 acre feet.

All irrigation water sales will be at the rate of \$225.00 per acre foot. Irrigation water will be metered and sold in 1,000 gallon units @ approximately \$0.69 per 1000 gallons. Irrigation water accounts will be billed monthly at the monthly meter rate plus 1/12 of the mandatory pre-purchase amount plus any usage over the pre-purchased amount.

For example, if a property with a 2" meter uses 4 acre feet per year, the rate would be calculated as follows:

Month	Monthly plus 1/12 of \$225	Usage in AF	Monthly charge
January	\$38.75	0	\$38.75
February	\$38.75	0	\$38.75
March	\$38.75	1*	\$38.75*
April	\$38.75	1 @ \$225	\$263.75
May	\$38.75	0	\$38.75
June	\$38.75	0	\$38.75
July	\$38.75	0	\$38.75
August	\$38.75	1 @ \$225	\$263.75

<b>September</b>	\$38.75	1 @ \$225	\$263.75
<b>October</b>	\$38.75	0	\$38.75
<b>November</b>	\$38.75	0	\$38.75
<b>December</b>	\$38.75	0	\$38.75

*\* The first acre foot (2 acre feet for a 4" meter) actually used is paid in monthly installments throughout the year.*
