The Military Affairs Commission was created, by Executive Order 2004-04, on March 2, 2004. The Commission is the permanent body to monitor and make recommendations to the Governor on executive, legislative and federal actions necessary to sustain and grow Arizona's network of military installations, training and testing ranges and associated airspace. Creation of the Military Affairs Commission (MAC) was a recommendation of the Governor's Military Facilities Task Force, and supercedes Executive Order 2003-18.
