CEO Dan Whaley Speaking at *Carbon Forum America*

Date: February 26-27

Location: San Francisco

Host Organization: Carbon Forum America

Description: Dan will be speaking in one of the opening sessions, entitled "Driving Innovation in a New Global Market," with Dan Reicher from google.org. Expanding the Carbon Market and bringing together new project developers, project hosts and entrants. CFA will be addressing emissions trading, carbon abatement solutions and new technologies.

Also, Dan will be hosting a side event at Carbon Forum America, entitled:

Ocean Iron Fertilization: Past Results, Recent Developments and Next Steps

Description: Ocean fertilization uses iron to trigger phytoplankton blooms at sea, which have the potential to sequester large amounts of carbon dioxide in the deep ocean as they mature and sink. This session will explain the fundamental science of the process, its key role in past climate cycles and how environmental concerns can be addressed. The primary elements of a formal GHG project methodology will also be presented. Finally, the next several years' objectives and challenges will be outlined.
